

A Leading Platform for Corporate Treasuries

TEX®

Designed with the specific needs of Corporate Treasurers in mind, 360T's TEX® Multidealer trading system supports OTC trading activity across an extensive range of instruments. Focused on relationship-based trading, TEX portal offers the most liquidity in OTC financial instruments.

The platform allows execution in all major product instruments in FX. Along with Spot, Outrights, Swaps, 360T enables execution in FX Options and NDFs, cash management products including Money Market Deposits, Triparty Repo and AAA Liquidity Funds with Market Makers of your choice.

Innovative request modes including multi-bank/-entity/-tenor/-direction help you to optimise your execution procedures and comply with MiFID best price execution requirements.

I-TEX Intragroup/White-Label Trading System

This is a proprietary branded trading single dealer platform available to roll out to branches and/or external clients.

360T's solution of linking and routing subsidiary requests to the central treasury. It is tailored to standardise and optionally automate internal hedge and funding requests from global subsidiaries to their corporate in-house bank.

Internal flows can be fully automated with best execution, back-to-back with both internal and external trades, cross-referenced for back-office systems.
